H-83

: Description of Type Design Change:

Installation of Airglas Engineering Company, Inc., Model
L2700AS350 skis in accordance with FAA STC No. SH709AL.

**Installation/Operating Data,
Required Equipment and Limitations:**

Installation of the above skis is to be carried out in accordance with Airglas Engineering Co., Inc., Drawing No. L2700-AS350, Revision H dated September 01,2011*

This approval applies only to the above rotorcraft which are fitted with either the standard or the high skid landing gear.

The applicable FAA approved Airglas Engineering Co., Inc. Rotorcraft Flight Manual Supplement, as listed below, is a part of this STC and must be attached to the basic DGAC approved Rotorcraft. Flight Manual when the helicopter is operated with the Airglas Model L2700AS350 skis installed:

*or later FAA approved revisions.

(SEE STC Continuation Sheet, Page 2 of 2)

Conditions: This approval is only applicable to the type/model of aeronautical product specified therein. Prior to incorporating this modification, the installer shall establish that the interrelationship between this change and any other modification(s) incorporated will not adversely affect the airworthiness of the modified product.

Frank Viele
For Minister of Transport

Canada

*(Continuation Sheet)*

Number: SH92-71 Issue 3

NOTE: THIS ADDENDUM SHALL REMAIN PART OF THE CERTIFICATE REFERRED TO THEREIN.

For the Model AS 350D (AStar): FAA approved Rotorcraft Flight Manual Supplement dated January 29, 1981*.

For the Model AS 350B (Ecureuil): FAA approved Rotorcraft Flight Manual Supplement dated March 11, 1982*.

For Models AS 350B1, AS 350B2 and AS 350BA (Ecureuil): FAA approved Rotorcraft Flight Manual Supplement dated December 24, 1992*.

For the Model AS 350B3 (Ecureuil): FAA approved Rotorcraft Flight Manual Supplement dated November 13, 2000*

* or later FAA approved revisions.

NOTE: This STC covers only the installation and not the fabrication of the Airglas Model L2700AS350 skis.
